

Technical Data

Superabsorbent Rolled Goods

Characteristics

- SAP granules in a roll or sheet form
- Thick or thin structures
- Wide or narrow

Uses

- Medical
- Dental
- Wire & Cable
- Filtration
- Labeling
- Packaging
- Spill control
- Mortuary
- Wound dressing
- Wheelchair pads

Chem-Posite™ NW3Ev2

Typical Characteristics

Basis Weight (gsm)	60
Thickness (mm)	0.25
MD Dry Tensile (N/cm)	22
MD Elongation at Break (%)	20
Swell Speed (mm/1 min)	9
Swell Height (mm/10 min)	10

Description: Premium grade superabsorbent polymer trapped between two layers of 100% polyester nonwoven.

Physical Form: Jumbo rolls, large rolls slit to desired widths, specialty dye-cut sheets

Storage Life: > 1 year, dry conditions, sealed rolls/sheets

WARRANTY: The information given here is considered to be correct and is offered for your consideration, investigation and verification. No warranties are expressed or implied since the use of this product is beyond our control.
